Web: <http://www.nhfv.org>

Through time and patience, Family Voices of New Hampshire has worked with the Title V/CSHCN program and the state Medicaid office to establish a Resource, Information and Support Center. Coordinators have assisted over 300 families this year, and have a presence with Title V, P & A, CHIP, the Child Find Policy and Practice Committee, the Governor's Chronic Illness Task Force and the Family Resource Connection (devoted to early childhood issues)! Good news in managed care: Families can better access services, because co-pays are minimal; through case coordination, some children are served for their needs, not just their diagnosis. However, having to "jump through hoops" for appointments with specialists or for ongoing services are problems with managed care. Perhaps the biggest challenge in NH is the shortage of home nursing. Without after school care, recreational opportunities, and nursing care, many parents must leave employment
