

United Cerebral Palsy sincerely appreciates all of the businesses who have generously supported their community by hiring people with disabilities. The contributions of these businesses have greatly changed the lives of many individuals who, without this support, may have never found the satisfaction and independence that comes from employment.

Supported Employment Services FOR APPLICANTS

Incorporated Since 1954

*Enabling individuals with disabilities
to live "Life without Limits"*

Supported Employment Services

You know you want to work, but may not know how to get started. United Cerebral Palsy of San Joaquin, Calaveras & Amador Counties can help you reach your employment goals through its Supported Employment Program. The staff of UCP's Supported Employment team will answer your questions, such as:

How do I fill out applications?

How do I create a resume?

How long will it take for me to start working?

How will I get to and from work?

What if I don't understand my job?

United Cerebral Palsy's Supported Employment program has been serving participants since 1989. Our Job Developers and Job Coaches receive formal and on-the-job training in order to efficiently help you find and maintain a job that:

- Is in your community
- You are interested in doing
- You are capable of doing
- Will enable you to become more independent

90% of those who are placed by Supported Employment begin working within six months of entry into our program.

Job Developer

You and your Job Developer will work closely in order to:

- Create a professional resume
- Complete applications
- Prepare for interviews
- Introduce you to employers
- Follow-up with employers
- Recommend accommodation

Job Coach

Once you are working you may receive Job Coaching. Job Coaches work with you for a period of time and assist you as needed.

Some of the ways a Job Coach may help is by:

- Answering questions you may have
- Demonstrating how tasks are to be done
- Communicating with your supervisor
- Finding solutions to any barriers you may come across

81% of those who are placed by Supported Employment continue working past the three month trial period set by many employers.

Participants in our program have found jobs as....
